

# Engrave A Brick

You are invited to commemorate  
your links with Box Hill School  
through buying a brick and creating  
a permanent reminder of your  
commitment to the school

## **A Wall to Remember**

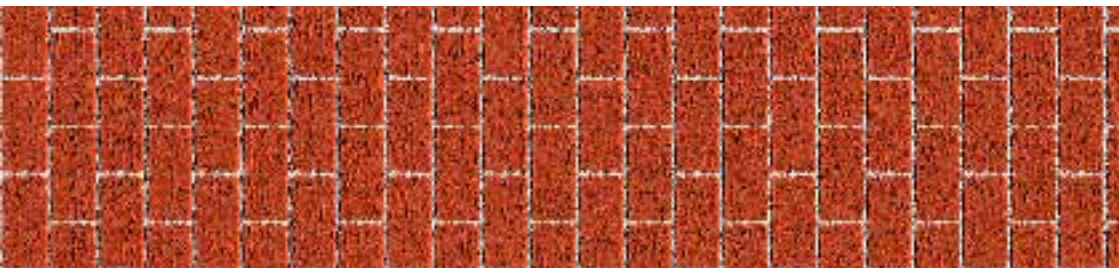

As part of our Jubilee Celebrations, we are going to create a wall with personalised bricks. You can purchase a brick which will be engraved with you or your child's name on it that will become part of the fabric of the school; a lasting reminder of your connection with Box Hill. Bricks can be purchased for £100, which includes the engraving of up to 32 characters (including spaces) over two lines.

**If you would like to order a brick, please complete the form overleaf and send in to Box Hill School with your payment.**

The monies raised from this will go towards two very important fundraising projects:

**To fund the building of the new Music School.** Over the fifty years since the school was opened the number of pupils has grown (in 1959 there were only 32). As a result various temporary buildings have been built and extended, but their upkeep is becoming too difficult and their uses have become limited. The current music rooms are an example of this and therefore the school is to build a 318m<sup>2</sup> Music School that will contain seven practice rooms, a recital room, recording studio, percussion room and teaching room. We will also need to provide new instruments and equipment for this facility, which we hope will also be used by other schools in the area.

**To provide a special bursary fund,** which will enable students to be educated at Box Hill School for up to seven years. These bursaries will be awarded to pupils who would benefit from, but would otherwise not be able to afford a Box Hill education. (This is in addition to our usual scholarship and bursary scheme.)

*Please complete this form with YOUR details and then fill in the 'brick form' (see reverse) with the characters you would like on the brick that you are purchasing (If you would like to buy more than one brick, please copy the 'brick form' and attach it to this).*
